Report of Independent Registered Public Accounting Firm

To the Stockholder and the Board of Directors of SouthState|DuncanWilliams Securities Corp.

Opinion on the Financial Statement

We have audited the accompanying statement of financial condition of SouthState|DuncanWilliams Securities Corp. (the Company) as of December 31, 2023, and the related notes (the "financial statement"). In our opinion, the financial statement presents fairly, in all material respects, the financial position of the Company at December 31, 2023, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statement based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statement. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

Ernst + Young LLP

We have served as the Company's auditor since 2023.

Notes to Statement of Financial Condition

December 31, 2023

1. Operations and Organization

Organization and Nature of Business

SouthState|DuncanWilliams Securities Corp., f.k.a Duncan-Williams, Inc. (the "Company") a Tennessee Corporation, is a broker-dealer registered with the Securities and Exchange Commission and is a member of the Financial Industry Regulatory Authority, Inc. ("FINRA") and the Securities Investor Protection Corporation.

The Company operates primarily as a principal in transactions for the purchase and sale of various types of debt securities, which include: obligations of the United States government, federal government agencies, various state and local governments and corporate debt.

The Company's securities transactions are made primarily with financial institutions, credit unions, private organizations and other broker-dealers. Safekeeping services for customer securities are provided by Pershing LLC ("Pershing"), on a fully disclosed basis. These securities are segregated in accordance with rules and regulations of the Securities and Exchange Commission ("SEC") which limits claims only to the owners of such securities.

On February 1, 2021, 100% of the Company's Common Stock was acquired by South State Bank, N.A. ("SSB").

In the ordinary course of business, the Company enters into transactions with SSB and subsidiaries of SSB. The Company's results may differ if it operated as a stand-alone entity.

2. Summary of Significant Accounting Policies

Use of Estimates

The preparation of the Statement of Financial Condition in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Statement of Financial Condition. Actual results could differ from those estimates.

Cash and Cash Segregated Under Federal Regulations

Cash includes deposits held at SSB, an affiliate of the Company, and at a non-affiliate bank that is not segregated and deposited for regulatory purposes. Cash segregated under federal regulations is segregated in an unaffiliated special reserve account for the exclusive benefit of customers under Rule 15c3-3(e) of the SEC. See Note 5, "Cash and Cash Segregated under Federal Regulations," for further information regarding cash balances.

Trading Securities Owned and Securities Sold, Not Yet Purchased, at Fair Value

Purchases and sales of trading securities are recorded on a trade date basis. Securities purchased for this portfolio are primarily municipals, treasuries and mortgage-backed agency securities and are held for short periods of time. This portfolio is carried at fair value.

2. Summary of Significant Accounting Policies (continued)

Fair Value of Financial Instruments

Certain assets and liabilities are recognized, on a recurring or nonrecurring basis, at fair value. Fair value is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company utilizes market data or assumptions that market participants would use in pricing the asset or liability under a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Credit Losses

The Company's receivables from brokers or dealers and clearing organizations include amounts receivable from settlement date adjustments, investment banking receivables, securities failed to deliver receivable amounts, and cash deposits. The Company's trades cleared through a clearing organization are subsequently measured at fair value, and the financial result is settled daily between the clearing organization and the Company. Because of this daily settlement, the amount of unsettled credit exposure is limited to the amount owed to the Company for a short period of time. The Company continually reviews the credit quality of its counterparties and has not experienced a default. The investment banking receivables are short-term in nature and are generally received within 60 days of payment due date. Therefore, no allowance has been established for customer or other broker-dealer receivables. The Company has not experienced any historical losses related to these receivables.

Furniture, Equipment, Leasehold Improvements, Net and Right of Use Asset

Furniture, equipment and leasehold improvements

Furniture, equipment and leasehold improvements are stated at cost, net of accumulated depreciation. Depreciation is computed by the straight-line method over the estimated useful lives of the assets, which range from three to ten years. Ordinary expenditures for maintenance and repair costs are expensed as incurred while major additions and improvements are capitalized.

Right of use asset

At lease inception, the Company determines whether an arrangement is or contains a lease. Operating leases are included in right-of-use ("ROU") asset and operating lease obligations in the Statement of Financial Condition. ROU assets represent the Company's right to use leased assets over the term of the lease. Operating lease obligations represent the Company's contractual obligation to make lease payments over the lease term.

For operating leases, ROU assets and lease liabilities are recognized at the commencement date. The lease liability is measured as the present value of the lease payments over the lease term. The Company uses the rate implicit in the lease if it is determinable. When the rate implicit in the lease is not determinable, the Company uses its incremental borrowing rate at the commencement date of the lease to determine the present value of the lease payments. Operating ROU assets are calculated as the present value of the remaining lease payments plus unamortized initial direct costs plus any prepayments less any unamortized lease incentives received. Lease terms may include renewal or extension options to the extent they are reasonably certain to be exercised. The assessment of whether renewal or extension options are reasonably certain to be exercised is made at lease commencement.

2. Summary of Significant Accounting Policies (continued)

Furniture, Equipment, Leasehold Improvements, Net and Right of Use Asset (continued)

Factors considered in determining whether an option is reasonably certain of exercise include, but are not limited to, the value of any leasehold improvements, the value of renewal rates compared to market rates, and the presence of factors that would cause a significant economic penalty to the Company if the option were not exercised. Lease expense is recognized on a straight-line basis over the lease term. The Company has elected not to recognize a ROU asset and obligation for leases with an initial term of twelve months or less.

Income Taxes

The Company files a consolidated federal tax return with SouthState Corporation, the parent company of SSB. Taxes are allocated to the Company based on its proportionate share of taxable income. There is a tax allocation agreement for the consolidated tax group. Amounts reflected as federal and state income tax expense are determined on a stand-alone method by the Company. Income taxes payable, as reflected on the Company's Statement of Financial Condition, are cumulative amounts due to the SSB for the Company's proportionate share of income taxes for 2023 and 2022, net of payments made to SSB or directly to certain states who require entity level tax filings.

Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized.

Tax positions must meet a recognition threshold of more-likely-than-not in order for the benefit of those tax positions to be recognized. The Company has determined that it does not have any material unrecognized tax positions as of December 31, 2023.

Reclassification

Certain amounts previously reported have been reclassified to conform to the current year's presentation. Such reclassifications are immaterial and had no effect on total assets or total stockholder's equity as previously reported.

Recent Accounting and Regulatory Pronouncements

Accounting Standards Adopted

In March 2020, FASB issued ASU No. 2020-04, Reference Rate Reform (Topic 848 – Facilitation of the Effects of Reference Rate Reform on Financial Reporting and subsequently expanded the scope of ASU No. 2020-04 with the issuance of ASU No. 2021-01 and extended the sunset date to December 31, 2024 with ASU No. 2022-06. This update provides companies with optional guidance to ease the potential accounting burden associated with transitioning away from reference rates that will be discontinued. The amendments in this update provide optional expedients and exceptions for applying GAAP to contracts, hedging relationships, and other transactions affected by reference rate reform if certain criteria are met. The Company does not have instruments directly or indirectly indexed to London InterBank Offered Rate ("LIBOR"). Therefore, there was no impact to the Company as a result of the discontinuation of LIBOR.

Issued But Not Yet Adopted Accounting Standards

In December 2023, the FASB issued ASU No. 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures, which aims to address requests for improved income tax disclosures from investors, lenders, creditors and other allocators of capital (collectively, "investors") that use the financial statements to make capital allocation decisions. The amendments in this ASU address investor requests for more transparency about income tax information, including jurisdictional information, by requiring consistent categories and greater disaggregation of information in both the rate reconciliation and income taxes paid disaggregated by jurisdiction. The amendments are effective for annual periods beginning after December 15, 2024. The Company does not anticipate this ASU will have a material impact on its Statement of Financial Condition.

3. Trading Securities Owned, at Fair Value

At December 31, 2023, trading securities, at estimated fair value, were as follows:

U.S. Government agencies	\$ 1,537,060
Residential mortgage pass-through securities issued or guaranteed	
by U.S. government agencies or sponsored enterprises	14,460,617
State and municipal obligations	14,619,872
Other debt securities	703,024
Total	\$ 31,320,573

4. Fair Value Measurements

GAAP defines fair value and establishes a framework for measuring and disclosing fair value. Fair value should be based on the assumptions market participants would use when pricing an asset or liability and establishes a fair value hierarchy that prioritizes the information used to develop those assumptions.

Prices for certain U.S. government and agency obligations are readily available in the active markets in which those securities are traded, and the resulting fair values are categorized as Level 1.

Level 2 trading securities include certain U.S. government and agency obligations, corporate debt obligations, state and municipal obligations and certain types of certificates of deposits for which quoted prices are not available in active markets for identical instruments. The Company utilizes a third party pricing service to determine the fair value of each of these investment securities. Because quoted prices in active markets for identical assets are not available, these prices are determined using observable market information such as quotes from less active markets and/or quoted prices of securities with similar characteristics.

Level 3 trading securities include certain municipal securities that are in technical default. They are valued based on anticipated refinanced proceeds available under current cash flows of the underlying assets reduced for any contingent payments anticipated to refinance.

The use of different methodologies may have a material effect on the estimated fair value amounts. The fair value estimates presented herein are based on pertinent information available to management as of December 31, 2023. Such amounts have not been revalued for purposes of the Company's Statement of Financial Condition since December 31, 2023 and, therefore, current estimates of fair value may differ significantly from the amounts presented herein.

Assets and Liabilities Recorded at Fair Value on a Recurring Basis

The following tables present the Company's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis at December 31, 2023.

	<u> </u>	Level 1	_	Level 2	 Level 3	 Total
Assets						
Trading securities owned: U.S. government						
agencies	\$	-	\$	1,537,059	\$ -	\$ 1,537,059
Residential mortgage						
pass-through securities						
issued or guaranteed						
by U.S. government						
agencies or sponsored						
enterprises		-		14,460,617	-	14,460,617
State and municipal						
obligations		-		14,440,866	179,007	14,619,873
Corporate bonds		-	_	703,024	 -	 703,024
Total	\$	-	\$	31,141,565	\$ 179,007	\$ 31,320,572

4. Fair Value Measurements (continued)

	Level 1		Level 2	 Level 3		Total
Liabilities						
Trading securities sold, not	yet purchased:					
U.S. government and						
agency obligations	\$	- \$	13,628,699	\$ 	\$_	13,628,699
Total	\$	- \$	13,628,699	\$ -	\$	13,628,699

There were no changes during the year ended December 31, 2023, to the Company's valuation techniques used to measure asset and liability fair values on a recurring basis.

The following is a reconciliation of beginning and ending balances for Level 3 assets and liabilities:

Fair value at January 1, 2023	\$ 178,630
Less payments received	-
Change in unrealized gains	377
Fair value at December 31, 2023	\$ 179,007

The determination of fair value incorporates various factors including not only the credit standing of the counterparties involved, but also the Company's nonperformance risk or its liabilities.

Fair Value of Financial Instruments

The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate that value:

Cash and Cash Segregated under Federal Regulation — The carrying amount is a reasonable estimate of fair value is considered Level 1.

Trading Securities Owned, at Fair Value — The fair value of trading securities, which include U.S. government and agency obligations, corporate debt obligations, state and municipal obligations and certain types of certificates of deposits, is derived from a third party pricing service. Because quoted prices in active markets for identical assets are not available, these prices are determined using observable market information such as quotes from less active markets and/or quoted prices of securities with similar characteristics and are considered a Level 2. Level 3 trading securities inlcude certain municipal securities that are in technical default. They are valued based on anticipated refinanced proceeds available under current cash flows of the underlying assets reduced for any contingent payments anticipated to refinance.

Accrued Interest on Securities Owned —The carrying amounts of accrued interest approximate fair value. The accrued interest receivable on securities owned are considered Level 2.

4. Fair Value Measurements (continued)

The estimated fair value, and related carrying amount, of the Company's financial instruments are as follows:

	Carrying	Fair						
	Amount	Value	_	Level 1	_	Level 2	_	Level 3
Assets								
Cash	\$ 680,677	\$ 680,677	\$	680,677	\$	-	\$	-
Cash segregated under								
federal regulations	125,003	125,003		125,003		-		-
Trading securities owned,								
at fair value	31,320,572	31,320,572		-		31,141,565		179,007
Accrued interest on								
securities owned	283,911	283,911		-		283,911		-
Liabilities								
Trading securities sold,								
not yet purchased	\$ 13,628,699	\$ 13,628,699	\$	-	\$	13,628,699	\$	-

5. Cash and Cash Segregated under Federal Regulations

Cash in the amount of \$125,003 has been segregated and restricted from use in a special reserve bank account for the exclusive benefit of customers under SEC Rule 15c3-3. The Company is exempt from SEC rule 15c3-3 under provision (k)(2)(ii) of the Rule and is also claiming exemption pursuant to FN74. There was no amount required to be on deposit during the period and as of December 31, 2023.

6. Receivables from and Payables to Brokers or Dealers and Clearing Organization

The amount receivable from and payable to brokers or dealers and clearing organizations at December 31, 2023, consists of the following:

Receivables:

Deposits and other with brokers or dealers	\$	90,255
Deposits with clearing organizations		73,930,892
	\$_	74,021,148

Approximately 99.9% of receivables from and payables to brokers or dealers and clearing organizations is due from one clearing broker.

7. Furniture, Equipment, Leasehold Improvements, and Right of Use Asset

Furniture, fixtures and leasehold improvements consisted of the following at December 31, 2023:

Furniture and fixtures	\$	466,270
Leasehold improvements		25,673
	_	491,943
Less: accumulated depreciation		(232,272)
Total property, equipment and leasehold improvements, net	-	259,671
Right of use asset (see Note 9)		9,666
Total	\$	269,337

8. Income Taxes

The components of the deferred liability of \$43,307 consists of ROU asset and liability differences and depreciation.

9. Leases

The Company leases office space and office equipment under various operating leases through January 2025, with renewal options thereafter.

Lease liability maturities consisted of the following at December 31, 2023:

2024	\$ 9,108
2025	 759
Total	 9,867
Less interest	 (62)
Total	\$ 9,805

As of December 31, 2023, the weighted average remaining lease term and weighted average discount rate for operating leases was 1.09 years and 1.25%, respectively. As of December 31, 2023, the Company had one operating lease that has not yet commenced. The lease has a term from January 1, 2024 through December 31, 2031, a discount rate of 6.09% and an initial right of use asset of \$2,543,613.

10. Commitments and Contingencies

Legal Matters

The Company, in its capacity as a broker dealer and underwriter, is subject to litigation and various claims in the ordinary course of business, as well as regular inquiries and examination by regulatory agencies. Management of the Company believes, based on its current knowledge and consultation with counsel, that the resolution of any various legal matters will have no material adverse effect on the Company's Statement of Financial Condition.

Other Matters

In the normal course of business, the Company enters into underwriting commitments. Transactions relating to such underwriting commitments that were open at December 31, 2023, and were subsequently settled had no material effect on the Statement of Financial Condition as of that date. Open underwriting positions at December 31, 2023 were \$10,000. The Company has open transactions that settle on future dates through its Pershing clearing agreement on a fully disclosed basis. At December 31, 2023, buys with a contractual value of \$599,683,238 and sells of \$613,147,772 were open. As a participant in underwriting syndicates, the Company may become contingently liable for its prorated portion of any trading loss assumed by the syndicate due to the syndicate's remarketing obligations arising with respect to an offering.

11. Related Party Transactions

The Company has a shared services agreement with SSB. At December 31, 2023, the Company had income taxes payable to SSB of \$1,191,036 for the Company's proportionate share of income taxes and \$11,007 payable to SSB for outstanding Company invoices, which are recorded within Income Taxes Payable to Parent and Accounts Payable, respectively, on the Company's Statement of Financial Condition. The Company engages in transactions with related parties in the ordinary course of business in compliance with applicable regulations.

12. Financial Instruments with Off-Balance Sheet Risks and Concentration of Credit Risk

In the normal course of business, the Company may be exposed to risks in the execution of securities transactions. These transactions involve elements of risk as to credit extended, market fluctuations, and interest rate changes.

The Company's securities transactions clear primarily on a delivery versus payment basis. The execution of substantially all purchases and sales of securities requires the performance of another party to fulfill the transactions. In the event that the counterparty to the transaction fails to satisfy its obligation, the Company may be required to purchase or sell the security at the prevailing market price, which may have an adverse effect.

The nature of the securities industry is such that large cash and receivable balances are maintained in various financial institutions. These balances may exceed the limits of coverage guaranteed by the Federal Deposit Insurance Corporation the Securities Investor Protection Corporation.

The Company, as a securities broker-dealer, is engaged in various securities trading activities with a variety of customers including individuals, financial institutions, credit unions, insurance companies, pension plans and other broker-dealers. The Company's exposure to credit risk associated with the non-performance of these counterparties could be impacted by changing market conditions which could impair the counterparty's ability to satisfy their obligations to the Company.

In addition, the Company has sold securities that it does not currently own and will therefore be obligated to purchase such securities at a future date. The Company has recorded these obligations in the Statement of Financial Condition at December 31, 2023, at fair values of the related securities and will incur a loss if the fair value of the securities increases subsequent to December 31, 2023.

13. Net Capital Requirement

The Company is subject to the SEC Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1.

At December 31, 2023, the Company had net capital of \$88,254,191, which was \$88,004,191 in excess of its required net capital of \$250,000. Withdrawals of excess net capital, including advances to affiliates, are subject to regulatory approval if the withdrawals exceed 30% of excess net capital over a 30-day period or reduce excess net capital below 25% of deductions from net worth. The Company's net capital ratio was .0288 to 1 at December 31, 2023.

14. Subsequent Events
